

Zack Altschuler

(805) 807-1221 | San Jose, CA | altschulerzack2@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-stack developer with a proven track record of building scalable, high-performance web applications. Adept at designing intuitive user experiences, optimizing system efficiency, and solving complex technical challenges. Proficient in **React.js, TypeScript, and GraphQL**, with hands-on experience across diverse projects.

Thrives in **fast-paced, collaborative environments**, balancing technical precision with innovative problem-solving. Passionate about driving product growth, refining system architecture, and delivering impactful solutions that align with business goals.

KEY COMPETENCIES

- **Proficiency in React.js, TypeScript, JavaScript** – Strong expertise in front-end development and modern web technologies.
 - **Collaboration in Agile Environments** – Skilled at working with cross-functional teams to deliver high-quality software.
 - **Problem-Solving & Debugging** – Adept at troubleshooting and resolving complex technical issues.
 - **User-Centric Design & Development** – Experience crafting seamless interfaces with a focus on performance and accessibility.
 - **Version Control & Code Quality** – Proficient in Git workflows and maintaining maintainable, scalable codebases.
 - **Testing & Quality Assurance** – Familiar with unit testing, integration testing, and end-to-end testing frameworks.
-

PROFESSIONAL EXPERIENCE

GLASSPASS

Nov 2021 - May 2024

Software Engineer

Key contributor to GlassPass, the leading **Glass Marketplace**, driving platform growth, feature innovation, and system scalability using **React.js, GraphQL, and TypeScript**.

- **Revamped the admin panel**, streamlining customer service workflows and reducing response times.
- **Led a major UX/UI overhaul**, collaborating with designers to improve signups and user retention.
- **Developed and deployed high-impact features**, expanding platform capabilities to support evolving business needs.
- **Converted the codebase into a monorepo**, enabling shared component usage across the app and website.
- **Scaled the marketplace from 30,000 to 100,000+ users** as part of a small, agile development team.

SPEEDRUN BOUNTIES

Oct 2020 – Nov 2021

Software Engineer

Developed and optimized the Speedrun Bounties platform, focusing on **feature development, performance improvements, and user engagement** using **React.js** and **GraphQL**.

- **Designed and implemented new features**, improving functionality and enhancing the overall user experience.
- **Developed an automated PayPal payment feature**, allowing users to receive payouts faster and more efficiently.
- **Led a push for responsive design**, ensuring a seamless experience across desktop and mobile devices.
- Gained valuable experience in **software development best practices, debugging, and team collaboration**.

EDUCATION

High School Diploma

Leigh High School
San Jose, CA

CERTIFICATIONS & AWARDS

Bloc – Web Development Certificate (2020)

Completed an intensive program focused on industry best practices and modern software development, with expertise in:

- HTML5, CSS3, JavaScript, Node.js, React.js, algorithms, and data structures
